Graduate
Nurse Program

Graduate to a great career!

“The RDNS Graduate Nurse Program offers a multitude of challenges and opportunities. I was incredibly well-supported as I strengthened the skills needed to make lasting contributions to the lives of many people in the community.”

Alex, RDNS Graduate Nurse

If you want to get your nursing career off to a flying start, the RDNS Graduate Nurse Program is your chance.

Our program offers an exciting opportunity for you to develop meaningful relationships with your clients while providing them with nursing care in their own homes.

Drawing on the support and advice of your personal and highly experienced preceptor, you'll have the chance to call on all your skills, while making significant and lasting contributions to people's wellbeing.

You will assist your clients to become more involved in their healthcare, enhance their independence and guide them to a better quality of life.

And you will work closely with other experienced nurses, receive daily support from your colleagues and form new and lasting friendships.

Our Graduate Nurse Program is a truly unique opportunity to experience the exciting and diverse world of district nursing: a world that promises fresh challenges and rewards each and every day.

What does the RDNS Graduate Nurse Program offer?

The most important thing that our program offers you is the unique challenge and enormously rewarding experience of caring for clients in their homes.

To help make your journey with us as fulfilling as possible, our Graduate Nurse Program includes the following:

- A 12 month contract
- A preceptor for the entire 12 month period
- Mainly Monday – Friday work (no weekends or evenings in the first 6 months)
- An Accrued Day Off (ADO) every four weeks
- Exposure to different clients and environments
- Participation in a total of 7 study days in the following areas: continence, dementia, diabetes, medication, pain and wound management and preparation for a Grade 2, Yr 2 role
- Two clinical rotations where you have the chance to spend time with a senior nurse in an area of your choosing e.g. wound care, diabetes, continence, HIV/AIDS, palliative care
- Salary packaging up to \$16,050 plus Meal and Entertainment card
- Use of an RDNS car, laptop and mobile phone for work purposes
